Sustainable Tour: Scenic River Float through Bald Eagle preserve, Skagway (SKE4)

Discover the rugged beauty of Alaska and have unforgettable experiences. Watch bald eagles soar and whales frolic just offshore. View totems created hundreds of years ago by native Tlingit people and hear their tribal stories. Go flightseeing, high above the snowy mountains, and kayak through ancient fjords. Travel on a thrilling zipline through the rainforest, or hike near the majestic Mendenhall Glacier. In town, stroll through lively farmer's markets and sample world-famous seafood. Visit an organic coastal oyster farm and learn about the daily operations of sustainable kelp and oyster farming, one of many tours available that have been certified by the Global Sustainable Tourism Council (GSTC). These shore excursions include education about the destination's history, culture, and environment, and how to preserve its authenticity.
