

Happening once every 10 years, Floriade is an opportunity for Dutch cities to share sustainable innovation. Floriade 2022 will take place just outside of Amsterdam, on the waterfront of Almere, where guests can stroll the expansive arboretum, sample healthful foods and learn about developments in sustainable architecture and energy. Uniworld guests will enjoy a rare chance to spend a full day visiting Floriade to experience the splendor for themselves.

HIGHLIGHTS

- A sustainably powered cable car will bring guests above the park for picturesque, aerial views.
- International pavilions from over 40 countries will represent sustainable solutions from all over the world.
- Art, live music and other cultural programming will energize the park.
- Parts of the Floriade Park will lay the groundwork for the entirely green new city of Hortus, including Food Pavilion and a bridge system made of repurposed waste.
